

ULTRAplate

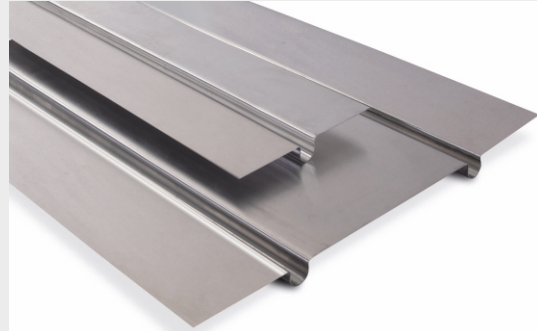

Aluminium Heat Diffusion Plates

Product Information

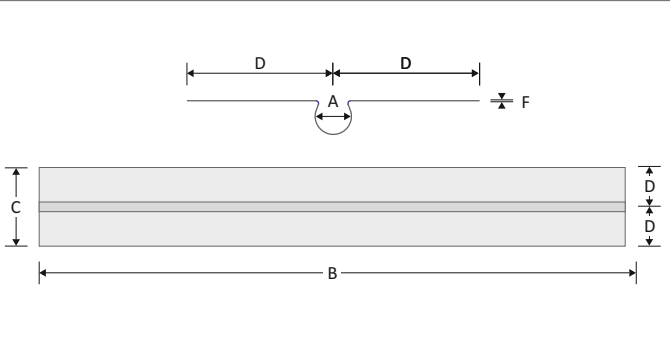

CELLECTA's ULTRAplates are made from highly conductive aluminium. Each heat spreader plate is manufactured to suit the specific application, diameter of pipe and spacing required. When inserted into an XFLO® board or any other insulation they will provide outstanding homogenous, rapid heat conduction through to the floor's surface.

Product Benefits

- ⊕ Highly conductive, increases the UFH's efficiency
- ⊕ Made from high quality aluminium
- ⊕ Manufactured to suit pipe diameter and spacing required
- ⊕ Works with XPS & EPS insulation boards
- ⊕ Minimises downward heat loss
- ⊕ Available with 1, 2 or 3 impressions
- ⊕ Large stock holding and prompt delivery
- ⊕ Quick and easy to install
- ⊕ Made in the UK
