

UNICLOSER X

Insulated Cavity Closers

Product Information

CELLECTA's UNICLOSER X combines the benefits of a HEXATHERM extruded polystyrene with one or two U-PVC damp proof course profiles to produce a rigid cavity closer that eliminates cold bridging around window and door openings.

Key Benefits

- Effective rigid DPC
- Eliminates cold bridging around window and door returns
- Compatible with full and partial fill cavity insulation
- Quick and easy to install

Physical Properties

		UNICLOSER X	
		Standard	Double Standard
Thermal Conductivity EN 12667	W/mK	0.033	0.033
Number of rigid DPC profiles	-	1	2
Closer length	mm	2500	2500
Standard widths (other sizes manufactured to order)	mm	75, 100, 125	75, 100, 125, 140, 150, 175, 200
Profile(s) detail	-		
Number of fixings required per length		 6 "Universal fixings"	 12 "Wall ties"
